

The lovely photographs & views are
the greatest pleasure. I
miss it very much
Some day you will let
me paint you by lamp
light - wait - you

I have sent for the
lamp, but I know it will

take me all my time
making it nice enough

so cold now but
fine - There has been
a wet interval during which

The "temporary stopping" left by
the mason washed through
the skylight - - Today they are
at it again, he & the
carpenter - I hear them dis-
cussing the price of lead
with the woman opposite -

I had say this for 8-10 lbs.
No more dough nuts
after today - "I dearly loves

an 'ard dough nut" says
the lady opposite

"NO put 'em where they'll
catch the damp for me"
says the mason -
